

INSURANCE VERIFICATION WORKSHEET

Before your appointment, it's essential that you confirm your insurance coverage directly with your insurance company. This ensures that there are no surprises or complications when it comes to billing and payment for your visit. Here's what you'll need to do:

1. **Contact your insurance company:** You'll need to give them a call.

2. **Specify the provider you'll be seeing:** When you speak with your insurance representative, make sure to verify coverage for the provider you'll be seeing at our clinic. You may also want to provide your insurance representative with the National Provider Identifier (NPI) for your provider. An NPI is a unique identifier assigned to only healthcare providers, and it helps your insurance company accurately verify coverage.

Jessica M Evans, ND | NPI: 162-949-0891

3. **Confirm coverage:** Ask your insurance company whether your chosen provider is covered under your plan as either an IN-NETWORK or OUT-OF-NETWORK provider. This will help you understand any potential out-of-pocket expenses you may incur.

By taking these steps, you'll ensure a smoother experience during your visit to our clinic, and you'll have peace of mind knowing that your insurance coverage is confirmed in advance.

If you have any questions or need assistance with this process, please don't hesitate to reach out to our clinic staff! We're here to help you every step of the way.

We are looking forward to working with you!
